

Schantz MakerSpace

Have an idea for a wood or metal working project but don't have the right tools at home? Need access to CNC router technology or laser engraving? Are you interested in learning the skills of the workshop or how to operate these project-enhancing machines? Schantz MakerSpace has everything you need!

Join us for an Open House!

**Where: Schantz Organ Company
626 S Walnut St
Orrville, OH 44667**

**When: Saturday, December 5th
11am to 1pm**

Schantz MakerSpace, at its heart, is a place for people who like to build, invent, tinker, and/or learn new skills. We offer a large work space, filled with a wide array of woodworking and metalworking equipment that you can't find in an everyday workshop. We also have experienced staff available to help you learn how to use these machines and develop your skills.

We hope you'll join us and become a member!
