### (1) List your judicial experience (courts & years).

Judge of the Miami County Municipal Court since 2013

### (2) What about your non-judicial legal experience qualifies you to be a judge?

I appeared in court several times a week for almost twenty years in both criminal and civil proceedings. I made policy decisions about the most important issues facing the criminal justice system for almost twenty years. I administered and supervised a sizable staff and budget and know how to make a government office run efficiently and effectively. I can not think of a better background and experience to prepare one to sit as judge.

### (3) Why are you running for this particular court seat?

I am running for the municipal court bench primarily because it is the judicial position that I believe offers the most and closest contact with the public. Most people who have an experience with a court system will have it in a municipal court. The municipal court bench gives a judge the greatest opportunity to have the most significant impact on the largest number of people. I believe it offers the opportunity to positively affect a community's quality of life. The pace and issues are challenging and offer great personal and professional satisfaction.
