### (1) List your judicial experience (courts and years):

This is my first run for judicial office.

### (2) What about your non-judicial legal experience qualifies you to be a judge?

First, I demonstrated academic excellence during law school, having graduated in the top 10% of my law school class, been appointed twice as a teaching assistant, and served on the Board of my law review. Second, I served as a federal law clerk immediately out of law school. That job made me realize the impact the courts could have in the lives of those who come before them. It also taught me what is involved in running an efficient court. Finally, my 17-year professional career has prepared me for this role. I've handled many cases around Ohio and in numerous federal and state courts around the country. I have appeared before many judges and magistrates, and have observed what makes a good trial judge.

### (3) Why are you running for this particular court seat?

I have always viewed the judiciary as one of the highest callings for any lawyer. I seek this job to make a positive impact on my community. I have the right education, experience, skills, and temperament to do well in the position.
