

| <b>Field Name</b>   | <b>Field Value</b>   |
|---------------------|--|
| Name                | Dr. Randy Mitchell   |
| Organization        | Department of Biology, University of Akron   |
| Phone               | 330-972-5122   |
| email               | <a href="mailto:rjm2@uakron.edu">rjm2@uakron.edu</a>   |
| Web_Address         | www3.uakron.edu/biology/mitchell/  |
| Renewal             | No   |
| Permit_Number       | 2009-007   |
| Activity            | Education  |
| Project             | 495/695 Diversity of Plants and Insects  |
| Dates               | June 20-July 25 2009   |
| Group_Size          | 8  |
| Research_Area       | Yes  |
| Eighteen_Acres      | Yes  |
| Beefys_Woods        | Yes  |
| Garden_Pond         | Yes  |
| Grandview_Alley     | Yes  |
| Round_Top           | Yes  |
| South_Woods         | Yes  |
| Sensitive_Area      | Yes  |
| Bath_Pond           | Yes  |
| Garden_Bowl         | Yes  |
| North_Fork          | Yes  |
| Tamarack_Bog        | Yes  |
| Other_Areas         | No   |
| Public_Areas        | Yes  |
| Steiners_Woods      | Yes  |
| Building            | Yes  |
| Prep_Work           | Use of the new classroom in se corner of building. Class meets Monday and Wednesday 12 - 3:30PM  |
| Sampling_Collecting | Yes  |
| Sampling_Methods    | We will collect plant and insect specimens throughout the preserve, being careful to avoid impacting the preserve and its biota, and to avoid existing research projects. These specimens collections will be added to the UAFS collection |
| Description         | This course introduces student to the diversity and natural history of plants  |

and insects through intense field experiences at the UAFS and BNP. We will do some collecting during short-duration field trips during this summer class, and will not damage populations, habitats, or research projects. We will coordinate with researchers in some cases to do collections and observations in their field sites.
