

Permit 2018-011

Response Summary:

Name:

Lisa Rainsong

Department or Organization:

Listening in Nature

Email Address:

lisa.rainsong@sbcglobal.net

Web Address where the public can learn more about this proposed activity (optional):

<http://listeningtoinsects.com>

Are you requesting renewal of a previously approved permit applicaton?

No

Type of activities at The University of Akron Field Station and Bath Nature Preserve
Research

Title of project or class name and course number:

Listening to Insects: NE Ohio's Crickets and Katydid

Date/Dates requested:

July 30-September 21

Number of people in group:

1, sometimes 2

I am requesting permission to use a Research Area.

Yes

I am requesting permission to use a Sensitive Area.

No

I am requesting permission to use areas outside of the designated Research or Sensitive Areas.

No

I would like to use the Martin Center for Field Studies and Environmental Education for this prop...

No

Will the activity involve destructive sampling/collecting?

No

Which Research Areas?

18 Acres

Beefy's Woods
Garden Pond
Grandview Alley
Round Top
South Woods

Provide a brief description of (1) your proposed activities, (2) goals, and (3) impacts of your u...

I will be researching the occurrence of specific cricket and katydid species at Bath Nature Preserve. I compiled a list of all species I heard or saw at Bath Nature Preserve in 2016, and it would be useful follow-up to learn if the unusual species that were present at that time are there again two years later. I also learned in 2016 that two virtually identical species of tree crickets are present at Bath Nature Preserve. The Forbes's Tree Cricket and the Black-horned Tree Cricket overlap zone is in NE Ohio, including at Bath Nature Preserve. It would be useful follow-up to document the occurrence of both species again two years later, as little is known about the exact overlap zone.

By checking this box, I agree to the above terms and state that all of the above information is c...
