We would like to collect water (~ 5 liters dispersed over time) from one of the smaller ponds using a bucket as well as collect herbaceous plants to press as herbarium specimen (~ 50 plants).

Provide a brief description of (1) your proposed activities, (2) goals, and (3) impacts of your u...

We are interested in collecting water samples to be used in a high school science class at Canton City High School (McKinley). Students will look at the sampled water in order to view the microscopic life that lives within in it. Additionally the herbarium specimen will used to explain local biodiversity and show the students that wildlife exists all around them.

By checking this box, I agree to the above terms and state that all of the above information is c...
